Summary

Motivated Computer Science graduate with a strong foundation in software development and a passion for creating innovative web applications. Proficient in C++, JavaScript, and Java, with hands-on experience in full-stack development using React.js and Node.js. Demonstrated strong problem-solving abilities by solving numerous coding problems on various platforms. Eager to leverage my skills in a challenging role to drive technology innovation and efficiency.

Technical Skills

Languages: C++, Java, JavaScript, SQL

Frontend/Backend : React.Js, HTML, CSS, Bootstrap, Node.js, Express.js, MongoDB

Developer Tools : VS Code, GitHub, Eclipse

Work Experience

Solar Secure Solutions

Nov 2022 - Jan 2023

Intern

Remote

- Developed and implemented front-end web technologies including HTML, CSS, JavaScript, and React.js.
- Completed assigned web development tasks proficiently using these technologies
- Collaborated with the development team to enhance the website's overall performance.
- Showcased strong problem-solving skills in debugging and optimizing code for better efficiency.

Projects

Trend Zone.

- Developed an online store using the MERN stack, enhancing user shopping experience with features like 'Add to Cart' and 'Checkout'.
- Implemented a responsive user interface ensuring seamless navigation and data management with MongoDB.
- Ensured cross-browser compatibility and optimized the platform for various devices, improving accessibility.

Climate Track.

[Link](#)

- Created a ReactJS-based weather application providing real-time weather updates.
- Designed user-friendly interface displaying essential weather details like temperature and wind speed.
- Integrated dynamic background changes to enhance user experience by reflecting current weather conditions.

Portfolio

[Link](#)

- Built a dynamic portfolio using modern front-end technologies to showcase personal projects and skills.
- Ensured the website is accessible and looks great on any device, be it a laptop, tablet, or smartphone.
- Included essential details such as my background, skills, and contact information for easy reference.
- Designed an interactive and visually appealing layout to engage visitors and highlight my expertise effectively.

Education

Chitkara University, Punjab

2020 - 2024

BE in Computer Science & Engineering

9.6/10 CGPA

S.G.H.P School, Patiala

2019 - 2020

12th

Percentage: 78

Achievements

- Solved **400+** coding problems on platforms like LeetCode, GeeksforGeeks, and CodeChef, demonstrating strong problem-solving skills.
- Participated and excelled in coding competitions, enhancing coding proficiency and algorithmic thinking.
- Contributed to open-source projects during Hacktoberfest, successfully completing all pull requests.
